PREFACE

This interesting and comprehensive collection of Silver Coins of the Kingdoms, Princes, Cities and Ecclesiastical, etc. Rulers in Germany, was made over a period of many years by Mr. Owston Smith.

Many were acquired from important collections in the Continent and appear for the first time in a London Sale Room.

The arrangement of this Catalogue follows that used in the Reimann Catalogues of 1891 and 1892.

There are many coins of great rarity and others rarely known in as fine condition.

The rarities are too numerous to describe individually, but Lot 664, The Double Taler of OTTO of SALM, dated 1604, appears to be unique. Lot 720, the Taler dated 1546 of BREMEN is also of extreme rarity.

Illustrations have been selected not only for rarity, but to cover a fairly wide range of interest.

No collection of such extensive interest in this Series has appeared in London previously.

The Second Portion of Mr. W. Owston Smith's Collection, comprising German Silver Medals, important Scandinavian, Obsidional and other coins of many countries will follow next season.

PRICED CATALOGUES

of Coins and Medals.

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is
